### PRODUCT DESCRIPTION

The DZ 370T 2T Vacuum Sealing Machine is a dual seal unit two seal bars designed for sealing contents in vacuum pouches. It is equipped with an electronic pressure sensor to assure control of the vacuum operation and optional gas injection functions when required. Both functions are fully user enabled. The DZ 370T 2T Vacuum Sealing Machine is available with a digital control panel that allows adjustment of the vacuum cycle length, seal bar heat and evacuation duration. These independent function controls allow use of many different pouch sizes. The DZ 370T 2T Vacuum Sealing Machine has a wide, long vacuum chamber that will accommodate very large packages. With an 11 inch by .31 inch seal bar, it is possible to seal up to two pouches in one operation. Plus, a letter and number kit is included which will allow date and text message identification to be embedded in the seal of each package. A great way to set freshness markings. All ERC Vacuum Sealing Machine are heavy duty models designed for countless sealing operations. Other than periodic replacement of pump oil which is included with the unit, no other user maintenance is required.

### PRODUCT SPECIFICATION

Chamber Length	17.7 in.
Chamber Width	14.5 in.
Chamber Depth	3.5 in.
Vacuum Sealing Bars	2 quantity
Vacuum Seal Bar Length	11 in.
Motor Strength	.55 hp
Voltage	110/240 volts

### DIMENSIONS

Weight:	80.00 lbs.
Width:	14.50 inches
Length:	22.00 inches
Height:	13.50 inches
