PRODUCT DESCRIPTION

ERC DZ 370T 2T Dual Seal Vacuum Sealing Machine The DZ 370T 2T Vacuum Sealing Machine is a dual seal unit two seal bars designed for sealing contents in vacuum pouches. It is equipped with an electronic pressure sensor to assure control of the vacuum operation and optional gas injection functions when required. Both functions are fully user enabled. The DZ 370T 2T Vacuum Sealing Machine is available with a digital control panel that allows adjustment of the vacuum cycle length, seal bar heat and evacuation duration. These independent function controls allow use of many different pouch sizes. The DZ 370T 2T Vacuum Sealing Machine has a wide, long vacuum chamber that will accommodate very large packages. With an 11 inch by .31 inch seal bar, it is possible to seal up to two pouches in one operation. Plus, a letter and number kit is included which will allow date and text message identification to be embedded in the seal of each package. A great way to set freshness markings. All ERC Vacuum Sealing Machine are heavy duty models designed for countless sealing operations. Other than periodic replacement of pump oil which is included with the unit, no other user maintenance is required. WARRANTY ERC warrants to the original purchaser for a period of time from the date of shipment, that its VACUUM SEALERS will be free from defects in material and workmanship when used under normal operating conditions. The warranty for VACUUM SEALERS is three 3 months labor and twelve 12 months limited warranty on parts excluding wearables . Improper use and user maintenance requirements are not covered by product warranty. ERC agrees to repair or replace, at its option, any defective part or component covered by this warranty, provided there was no abuse and ERC must first receive written notice of a defect within the applicable
