PRODUCT DESCRIPTION

The DZ 350 M vacuum sealing machine is a single seal bar unit designed for sealing contents in vacuum pouches. It is equipped with an electronic pressure sensor to assure steady control of the vacuum function. The DZ 350 M vacuum sealing machine is available with a digital control panel that is user programable for vacuum cycle timing, seal bar temperature and cool down evacuation duration for very easy operation. The DZ 350 M has a wide, long vacuum chamber that will accommodate very large packages or several small packages in one sealing cycle. With a 13.7 inch by .31 inch seal bar, it is possible to seal as many as four small pouches in one operation greatly increasing productivity. Additionally, a letter and number kit is included which will allow date and text message identification to be embedded in the seal of each package. A great way to set freshness markings.
